Know Most Effective Trading Secrets

Are you Trapped by:

- Selling at **lower levels**
- Buying at **higher levels**
- Missed **early entry**
- Missed **exit & lost all profit** at end
- After our **training** it will **never happen again**

Are You Tired of.....?

- Trying number of **Trading Systems**
- **False Past Performance** posted on sites
- Some analysts post performance **after 1-3 months** showing almost **double profit** with **calculation adjustments**. It is a trick for **not disclosing calls given yesterday**. Otherwise their clients will **cross question them**. Now **nobody remembers what calls** were given before **1-3 months**.
- They want only **1 month stand** customers **who get trapped** by **looking** at performance. So **be careful. Check performance every day**.
- Call entry did not come - **Could not enter the trade**
- Said Target did not come – **Lost Earned profit at the end**
- Do not be **misguided** by titles like more than **95% accuracy** & such things. **It may not exist. At the end you will feel cheated.**
- If somebody has **95% or more accuracy** than they should be amongst the **richest person of this world** or at least in **top 50 Richest in India** OR **at least in their district** OR **in their town. Think over this logically.**
- Now **DO NOT PAY** Rs.10000/-, Rs.20000/-, Rs.50000/- per month to anybody for trading calls who is claiming 95% or more accuracy. **It may not exist. At the end you will feel cheated.**
- Also **they do not give trial**. If their calls are genuine than **what's wrong in giving PAID TRIAL** say **Rs.1000/day**. So this may be **clear indication** that calls may not be genuine.
- **Net profit = % accuracy + % profit (1-5%/trade etc.)+ loss trades + Proper money management.**
- **What you can do is minimize loss & maximize profit. We will tell you- HOW.**

Credit Card - Most DANGEROUS

Warren Buffett- World's RICHEST man says DO-NOT USE CREDIT CARD

We have discovered few reasons why

Do you know they can charge as high as **36 to 45 % interest** per year.

Do you know that they charge **Rs.600/ penalty** for every late payment + **Highest** interest rate on **entire amount**.

Do you know that after you default you **DON'T GET LOAN** for anything **from any bank of India**. Because of **high interest** your debit amount will **rise so rapidly** that you may **not be able to match the speed**.

NEVER register for auto pay. It will **automatically** transfer amount from your bank account.

Credit card Safety

If you are using **Credit/debit card** than **CHANGE card every year** so **old RECORDED data** anywhere cannot deduct amount from your card **automatically**.
